Zero Zone is Now Offering 90-bar Rated CO2 Solutions

Zero Zone now proudly offers the option of 90-bar rated CO₂ systems and cases. In response to customer demand, we are providing this solution as a way to offer our customers more product protection and minimize

safety release events. Click below to view more information about how a 90-bar rating can protect your refrigeration system.

NASRC CO₂ Training Summit

Bruce Hierlmeier, the Zero Zone Director of Regulatory Compliance, will be one of the CO₂ refrigerant experts providing training at the North American

Sustainable Refrigeration Council (NASRC) Training Summit in Seattle, Washington. It will include an HVACR student & faculty networking event and an exhibit hall featuring the latest natural refrigerant products and service offerings. This event is a free 3-day event scheduled for November 12-14, 2024. For more information, click the link below.
